PROFESSIONAL SUMMARY

B.E. Computer Science graduate transitioning into a Network Engineer role, with practical experience across fiber-optic infrastructure, IT support, Huawei telecom operations, and warehouse administration. Experienced in network connectivity troubleshooting, physical-layer infrastructure, hardware support, and operational coordination. Currently building hands-on Cisco networking capability through CCNA-focused labs using Cisco Packet Tracer, with projects covering switching security, DHCP Snooping, Dynamic ARP Inspection (DAI), VLANs, routing, and troubleshooting.

CORE NETWORKING & TECHNICAL SKILLS

Networking	Routing & Switching; IPv4/IPv6; Subnetting; VLANs; ACLs; DHCP; Network Troubleshooting
Cisco / Labs	Cisco Packet Tracer; Cisco IOS CLI; Switching Security; DHCP Snooping; Dynamic ARP Inspection (DAI)
Infrastructure	Fiber Optic Cabling; Physical-Layer Troubleshooting; Rack Mounting; Telecom Infrastructure
IT Support	Operating System Installation; Printer Troubleshooting; Computer Hardware / Connectivity Troubleshooting
Operations	Inventory Management; Spare Parts Handling; Inbound / Handover Processes; Auditing; Cross-functional Coordination
Tools	Huawei iCare application; Cisco Packet Tracer

PROFESSIONAL EXPERIENCE

HUAWEI Warehouse Administrator and IT Support — MME Telecom.

Jul 2024 – Present | Jubail, Eastern Province, Saudi Arabia

- Manage spare-parts warehouse activities including inbound receiving, parts handover, inventory handling, and audit support.
- Use the Huawei iCare application for spare-parts and operational processes.
- Provide practical IT support for workstation issues, including operating-system installation, printer troubleshooting, and basic computer troubleshooting.
- Coordinate operational activities and maintain accurate handling of equipment and spare parts.

Information Technology Support Engineer — BATCO Group

Mar 2021 – Mar 2024 | Jubail, Eastern Province, Saudi Arabia

- Provided IT support and troubleshooting for computer and network-related issues.
- Supported hardware installation, maintenance, and connectivity troubleshooting.
- Applied practical troubleshooting skills across end-user and infrastructure environments.

HUAWEI Fiber Technician — BATCO Group

Feb 2018 – Feb 2021 | Jubail, Eastern Province, Saudi Arabia

- Worked with fiber-optic telecom infrastructure and physical-layer connectivity.
- Performed installation, testing, maintenance, and troubleshooting of fiber connectivity.
- Developed practical experience with telecom infrastructure, field troubleshooting, and network physical layers.

NETWORKING PROJECTS

DHCP Snooping & Dynamic ARP Inspection (DAI) — Cisco Packet Tracer

Designed, configured, and troubleshot a Cisco switching-security lab focused on DHCP Snooping and DAI, demonstrating practical understanding of Layer 2 security controls.

Small Hospital Network Setup — Cisco Packet Tracer

Designed a Cisco Packet Tracer topology for a small hospital environment, simulating connectivity across multiple departments with a focus on secure and efficient data communication.

EDUCATION

Bachelor of Engineering (B.E.), Computer Science — Arasu Engineering College

Jun 2013 – Apr 2017

CERTIFICATIONS & PROFESSIONAL TRAINING

- Cisco Certified Network Associate (CCNA) — Routing and Switching
- Cyber Security Certificate for Service Subcontractor Resource of Huawei CNBG — Huawei, Jan 2020
- Saudi Wireless Hardware Installation — Huawei, Jan 2020

Additional Huawei certifications/training are listed on the LinkedIn profile.
